

## COMPANY OVERVIEW/CAPABILITIES

- Employs 6 FTEs with over 50 Flexible staff.
- Engineering services in house
- 3D Solidworks modelling
- Continual R&D program
- In-house technical assurance and 100% quality Inspection
- 50% production exported to Nth America, Europe and Asia.
- Accepts high RPM and Torque
- Accommodates very high input amplitudes of the driving unit

## DISCRIMINATORS

- **Allows you to design the driveline around the vehicle and not the vehicle around the driveline.**
- Our unique patented technology has **no known competitors**
- Accommodates misalignments from **0° to 30°**
- Dramatically **reduces driveline vibration and noise**
- **99.89%** power efficiency which **reduces fuel** use
- Increases Mean **time between Equipment Failures**
- Fixed angle drive from **0° to 170°** Offset
- Operates in **harsh** environments

## KEY CUSTOMERS

- Scomi Monorail, India – 8 x train drive lines
- Blue Scope Steel, NSW – hot cart drive line
- Visy Recycling, NSW & VIC (3 x plants)
- Pindo Deli Paper – Indonesia
- Yacht Route 66 - USA

*“Your unique coupling was the only practical and cost effective solution.”*  
Bill Whitmore  
Owner Yacht Route 66 USA

## CERTIFICATIONS / REPORTS

- ISO9001:2008 Certified by Southpac Aerospace
- Lloyds Register Certification
- Australian designed and patented
- Supply Chain accredited to ISO9001 or AS9100
- FKA Germany (CV-Joint Efficiency)
- IPACS Australia – Performance Report
